

GFCC

Global Federation of
Competitiveness Councils

Connect.
Strategize.
Transform.

Our DNA

Leadership is the driving force needed to transform realities and achieve sustainable development in communities, cities, and nations across the world.

Leaders shape policy and create environments that foster innovation and sustainable practices. They must set examples and pave the way for new models and partnerships to emerge.

As a global leadership network, the GFCC serves as a platform for leaders to exchange ideas, co-create strategies that drive innovation and competitiveness, and advance initiatives to fuel growth and prosperity. Our unique strength lies in connecting and engaging leaders across geographies and sectors, fostering collaboration in uniquely content-rich settings.

Leadership matters. Your leadership matters, and we hope you can join us for the journey.

The Hon. Deborah L. Wince-Smith
President, GFCC

Mr. Charles O. Holliday Jr.
Chairman
GFCC

”

The GFCC provides a vital platform for sharing global best practices and engaging in crucial networking opportunities on one of the most consequential issues influencing a country's economic engine: competitiveness. The Delphi Economic Forum is proud to be a member at the GFCC.

Symeon G. Tsomokos

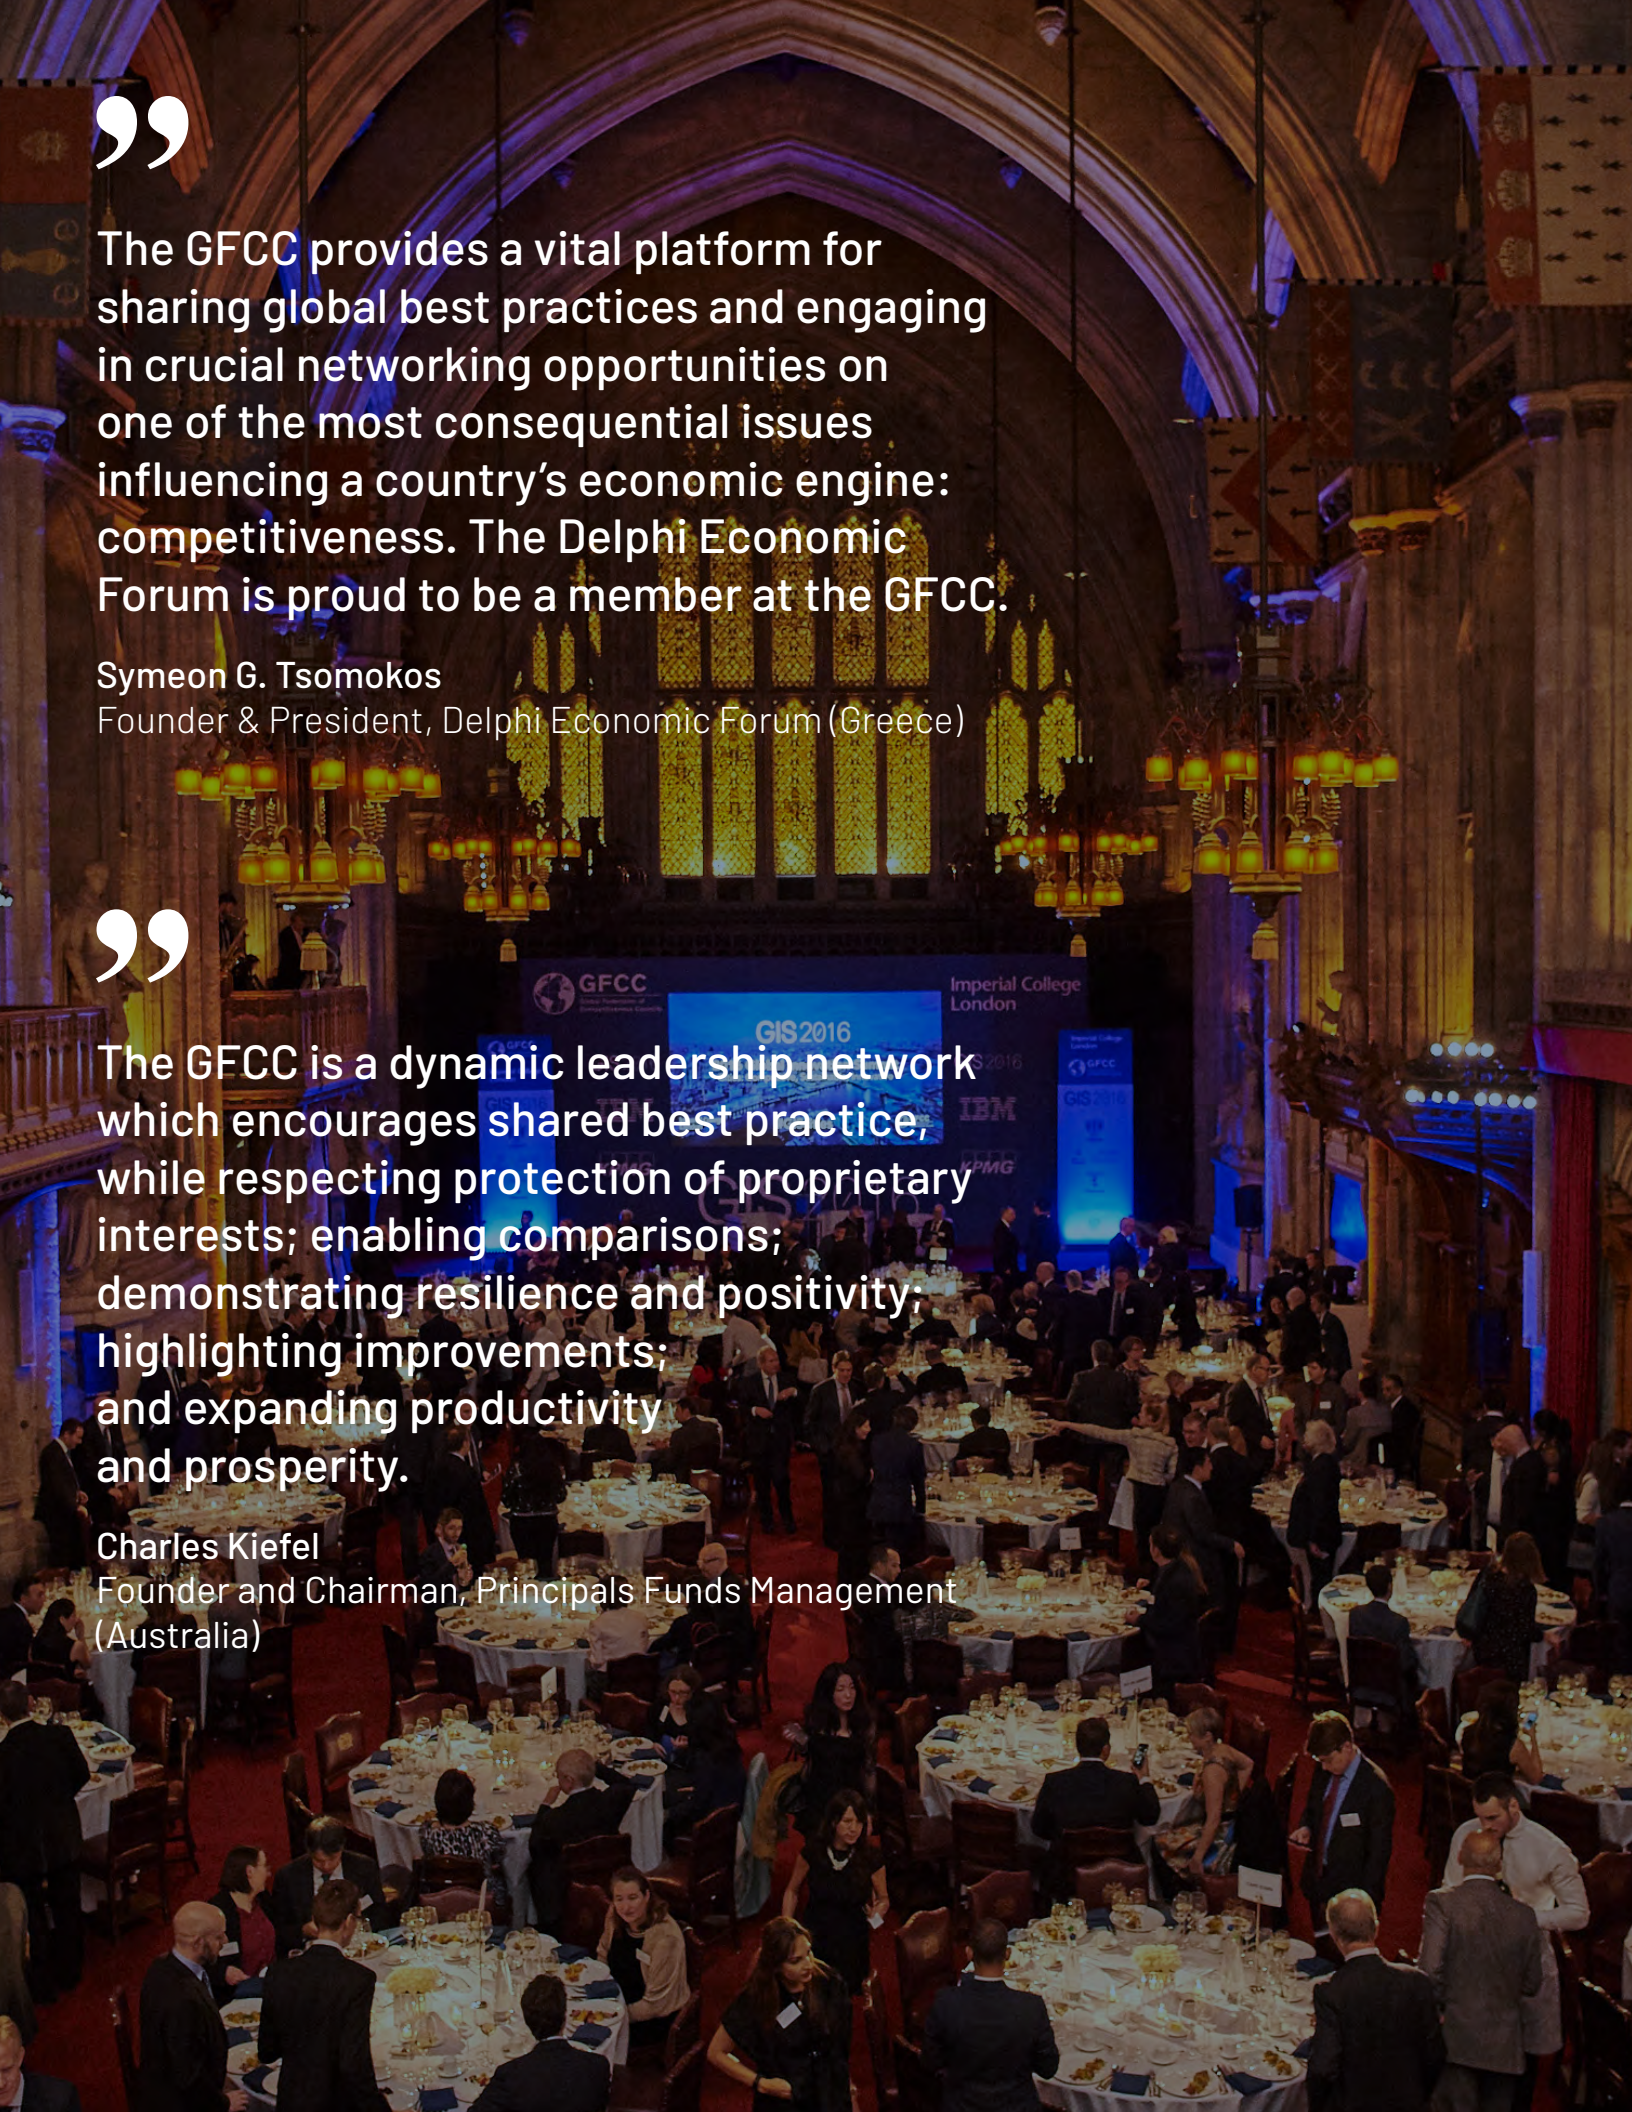

Founder & President, Delphi Economic Forum (Greece)

”

The GFCC is a dynamic leadership network which encourages shared best practice, while respecting protection of proprietary interests; enabling comparisons; demonstrating resilience and positivity; highlighting improvements; and expanding productivity and prosperity.

Charles Kiefel

Founder and Chairman, Principals Funds Management (Australia)

About the GFCC

The GFCC is a global multi-stakeholder membership organization founded in 2010 with a footprint spanning **more than 30 nations**. The GFCC is committed to disseminating best practices and developing innovative strategies to accelerate productivity, growth, and prosperity for countries, regions, and cities.

GFCC members include private sector councils on competitiveness and industry organizations, government agencies, global corporations, and leading research universities. Members pay annual dues to secure their placement in the network, which currently includes representatives from **22 countries spanning 6 continents**.

In addition to its members, the GFCC network includes a select group of experts invited to participate as fellows. These fellows contribute their specialized knowledge and expertise to the community, play a crucial role in project development and strategic initiatives, and enrich the GFCC's global perspective with their diverse backgrounds. Currently, the GFCC hosts **65 fellows from 24 countries**.

Global Innovation Summit 2022 (Athens/Greece).

”

Successful partnerships depend on creating a network of trustworthy partners and cherishing connections with multiple stakeholders. That's what the GFCC provides.

Prof. Isabel Capelo Gil
Rector, Universidade Catolica Portuguesa (Portugal)

”

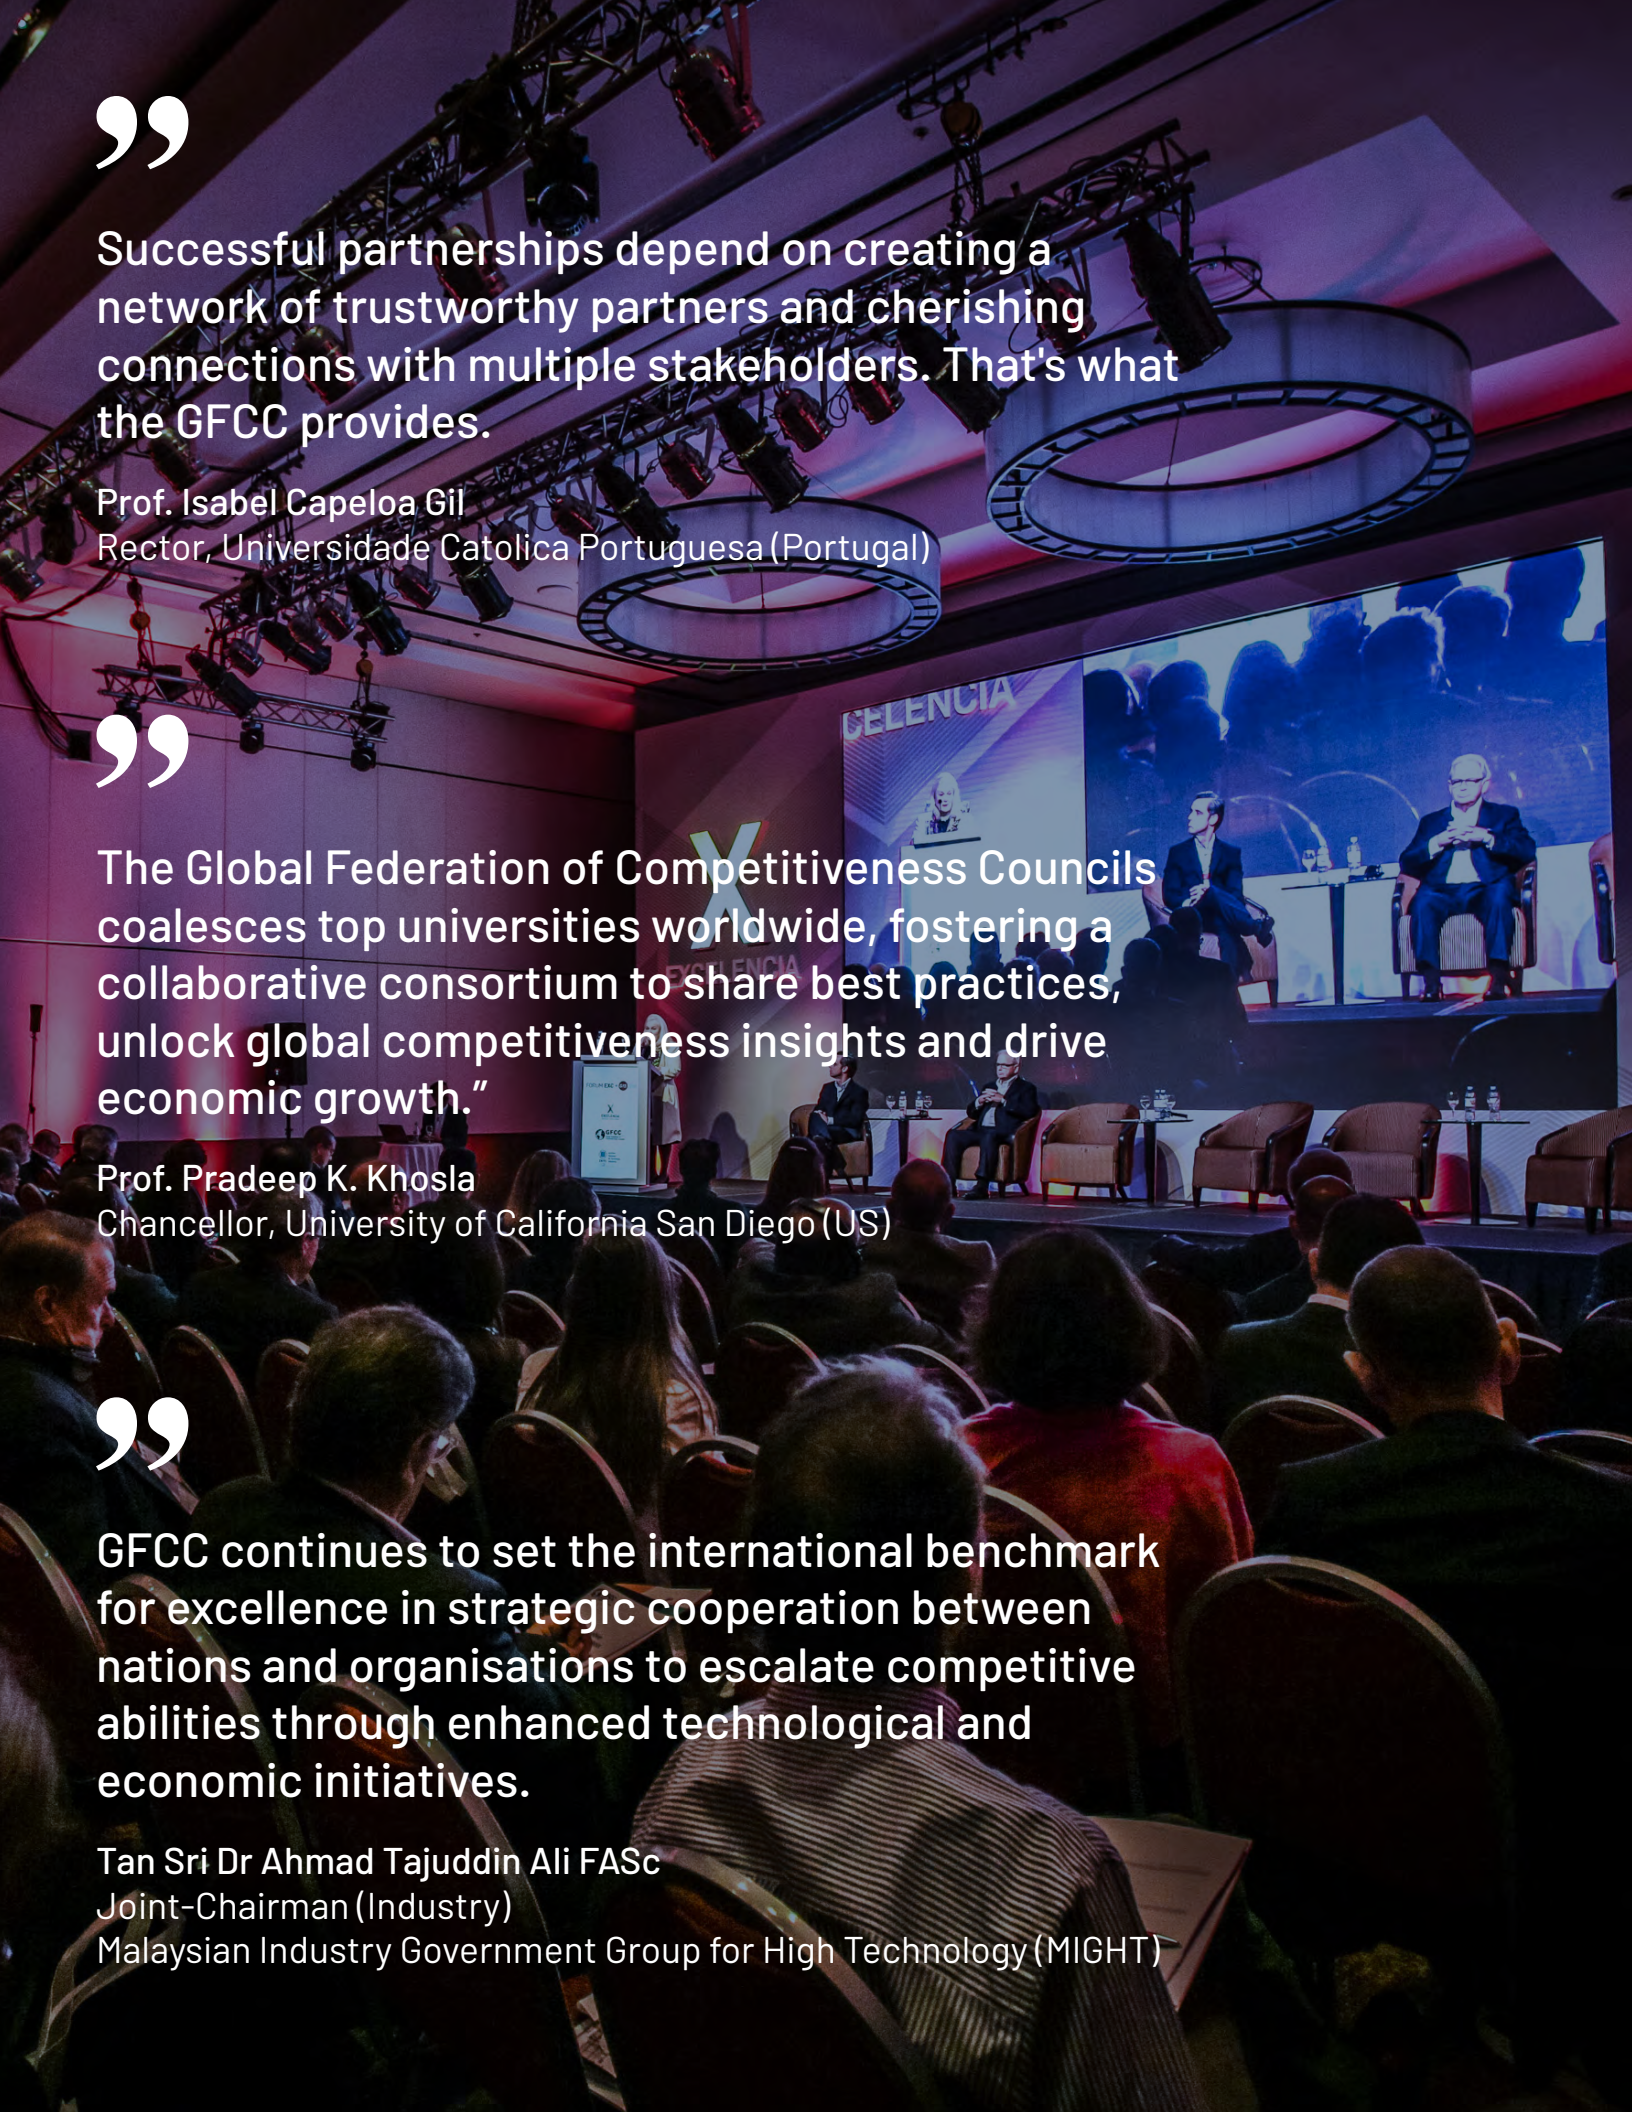

The Global Federation of Competitiveness Councils coalesces top universities worldwide, fostering a collaborative consortium to share best practices, unlock global competitiveness insights and drive economic growth.”

Prof. Pradeep K. Khosla
Chancellor, University of California San Diego (US)

”

GFCC continues to set the international benchmark for excellence in strategic cooperation between nations and organisations to escalate competitive abilities through enhanced technological and economic initiatives.

Tan Sri Dr Ahmad Tajuddin Ali FASc
Joint-Chairman (Industry)
Malaysian Industry Government Group for High Technology (MIGHT)

GFCC Value

”

The collaborations gained through the GFCC network of experts gave the NCC comprehensive guidance on how government, the private sector, and society need to work together.

Phillip Phiri Executive
Director of the National
Competitiveness Commission
(Zimbabwe)

Networking: Connect with high-profile leaders from industry, government, academia and civil society and regions worldwide in strategy conversations and knowledge exchange sessions. Engage and collaborate regularly with members and fellows to share insights and best practices, and build new initiatives.

Visibility: Gain access to investment and partnership opportunities, resources, and talent across geographies. Showcase your organization, region, or country through GFCC's events and initiatives.

Exclusive content: Get first-hand information, insights, and opportunities directly from experts on the ground around the globe.

Curated knowledge: Tap into relevant cases, data, experiences, and connections within our network, supported by the GFCC team.

Expert advice: Seek guidance from GFCC fellows, our team, and network experts to drive your innovation and competitiveness strategies. (Expert advice comes on top of the membership, with fees set by the scope of the assignment.)

Learn More

GFCC initiatives leverage opportunities in our network.

We collaborate with members and fellows to develop frameworks, strategies, and partnerships that drive impact and change.

The GFCC University and Research Leadership Forum (URLF) is a dynamic hub where thought leaders collaborate and explore trends and strategies to reshape the future of higher education and innovation. The URLF disseminates actionable insights from case studies and innovative models for university and research institutions to drive transformative change.

Our events offer unparalleled opportunities to connect, gain insights, share knowledge, and disseminate information across industry, academia, government and civil society at a global scale.

GFCC creates a diverse range of knowledge products that distill insights and knowledge gained from our activities and the concrete experiences of our members. Such materials also highlight our members' initiatives and achievements.

Know more and explore the content of our events, knowledge products, and initiatives on our website. Visit us at www.thegfcc.org.

Expand Your Global Reach

Augment your capacity to make an impact. Join our leadership community.

Let's discuss how we can collaborate.
